Project Design Phase-II
Data Flow Diagram & User Stories
Date	03 October 2022
Team ID	PNT2022TMID13339
Project Name	Project - Smart Fashion Recommender Application
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.
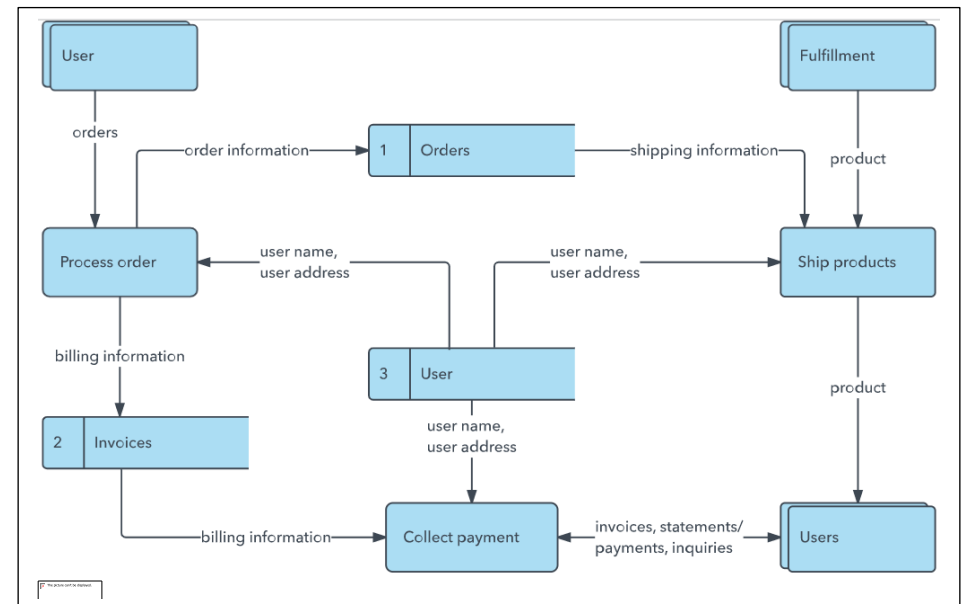

Example: (Simplified)

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

Example: DFD Level 0 (Industry Standard)

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-3	As a user, I can register for the application through Facebook	I can register & access the dashboard with Facebook Login	Low	Sprint-2
		USN-4	As a user, I can register for the application through Gmail	I can register for the application by Gmail	Medium	Sprint-1
	Login	USN-5	As a user, I can log into the application by entering email & password	I can login by giving email and password	High	Sprint-1
	Dashboard	USN-6	As a user, After login I can access the application's dashboard	I can assess the dashboard	Medium	Sprint-2
Customer (Web user)	Registration	USN-7	As a user, I can register/login into the web application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
Customer Care Executive	Query	USN-8	As a executive, I can chat with chatbot for any queries	I can chat with customer for any queries	High	Sprint-2
Administrator	Data accessibility	USN-9	As a admin, I can maintain the total data access	I can maintain the data access	High	Sprint-2
		USN-10	As a admin, I can view the how many customer use's this application	I can access the Db as a admin	High	Sprint-2
